

Welcome to Reboot

Tuesday 11 November 2025

Google Cloud

Welcome

Welcome to Reboot Edinburgh

Thank you for joining us for Reboot Edinburgh 2025! The Chief Technology Office, Changing Together team are thrilled to have you here and extend a warm welcome to all of you.

Hackathon 2025

Today's event promises to be a key moment in your 2025 learning calendar. Our action-packed schedule includes informative tech talks, panel discussions, hands-on workshops. Interact with a variety of our suppliers, partners, and areas of the Group at exhibition stalls around the event – all providing ideas for you to explore and learn. We also have over 150 competitors taking part in our Hackathon, competing for a selection of prizes against two business challenges.

You can also hear from event sponsor **Google**, who are hosting our Hackathon competition.

Reboot Edinburgh 2025 Theme is: Tech Skills needed for Now and in the Future at Lloyds.

So, what are you waiting for? Get ready to immerse yourself in the latest technologies, ignite your creativity, stay curious, learn something new, and most importantly, have some fun.

CTO Changing Together, Adoption and Communities Team
#EngineertheFuture

About the Hackathon competition

At the heart of Reboot is our Hackathon, where over 150 colleagues will compete to design a solution to one of two challenges.

Competing hackers will work together as a team of six and use the latest technology to provide a solution to one of our hack challenges, using the Google Cloud Platform.

Teams will be shortlisted and assessed on several criteria, including how well they have addressed the challenges and their use of technology.

Google Cloud

The two challenges are:

Challenge 1

Gamified Loyalty: Turning Engagement into Rewards

Design engaging, challenge-based experiences that encourage Lloyds Banking Group customers to take meaningful actions and unlock more value from their relationship with the bank. Using gamification, behavioural insights, and personalisation, create concepts that make loyalty more visible, rewarding, and interactive – helping customers understand, track, and earn rewards through clear goals, progress, and real-time feedback.

*Sponsor: Paul Wilkinson,
Rewards and Loyalty Director*

Challenge 2

Empowering Retirement Decisions

How might we help workplace pensions customers better understand their retirement options and confidently take action, without relying on regulated financial advice? We're looking for innovative, conversational experiences that guide users toward achieving their retirement goals in a clear, engaging, and empowering way.

*Sponsor: Derek Shanks,
Waterfront Platform Technology
Platform Lead*

Schedule of the day

Find below the running order for Reboot Edinburgh 2025, with so much to do be sure to take some time to plan and get the most out of your day!

Morning session

- 08:00** Doors open to hackers — and hacker teams can begin
- 08:30** General registration opens
- 09:00** Intro and information for hackers
- 09:30** Welcome speeches and announcements
- 10:00** Tech Talks and Workshops begin and the hack continues
- 12:30** Lunch

Afternoon session

- 13:30** The programme continues
- 16:20** Hack pitches start
- 17:40** Hackathon winners announced and celebratory refreshments
- 18:30** Event closes

Explore our Talk Schedule

Get ready for a dynamic lineup of tech talks that spark ideas and challenge perspectives. From industry insights to future-forward thinking, these sessions are designed to energise and educate. We also have a great line-up of Wellbeing Sessions, recharge your mind and body to reset, refocus, and reconnect with yourself. Found on level -1.

Speed Networking

Join us after lunch at 3pm on Level 1. Ditch the small talk and spark real connections in this fast-paced, 80-minute game-style session. You'll meet engineers and non-engineers from across LBG to swap ideas, share challenges, and leave with warm intros, mentor matches, and a simple way to keep the conversation going after Reboot.

Get hands-on at our Workshops

Roll up your sleeves and dive into our hands-on workshops! Whether you're a curious beginner or a seasoned techie, you'll leave with new skills and fresh ideas. Find our Workshops on Level -2 and Level 1.

Please note: some workshops require you to bring your LBG Laptop or Personal Device – check the schedule for more information.

A full schedule of Talks and Workshops can be found in this booklet, rated by knowledge level.

Discover our Exhibitors

Today you will find multiple exhibition stalls from various areas of the Group. Take the opportunity to speak to one of our experts and get hands-on with an activity or demo.

Catering information

Refreshments, tea and coffee will be available on arrival and throughout the day.

Lunch will be available between 12:30–13:30. You will also have an opportunity to network. We will cater for those with specific food allergies and/or requirements.

Refreshments will be available after the event.

Wi-Fi

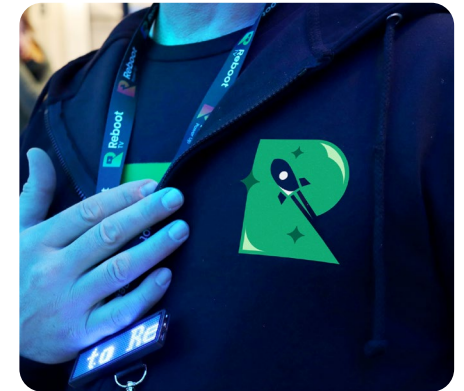

To connect to Wi-Fi use:

Network: delegate

Password: haymarket

Please avoid connecting unnecessary devices to avoid any impact to the Hackathon.

Need some help or have a question?

Around the venue, you will find colleagues wearing black 'Reboot Crew' t-shirts with a green coloured 'R' Logo on the front, who are here to support all attendees. If you need help with anything, please do not hesitate to speak to one of the crew.

Quiet Space

Today at Reboot we have a designated Quiet Space in the **Moffat Room found on level -2**. Please check out the site map for directions. Please avoid any calls/conversations in this room.

Talk Schedule

Menteith Room: Level -1

Time	Title	Speaker(s)	Description	RRS
10:00 – 10:30	Commit to the Future: How GitHub and Copilot are Changing the Way We Work	Stu Fosker	Version control isn't just for code anymore. From open source to AI-assisted creativity, GitHub and Copilot are redefining how we collaborate, learn, and build. This session explores how human insight and machine intelligence can merge to accelerate innovation – and what that means for everyone, not just developers. AI Literacy.	1
10:40 – 11:10	IDP – Progress, What You Can Do Now and What's Next!	Dan Davy	Learn how the Internal Developer Platform (IDP) can benefit you in an Engineering or in a Non-Engineering Role, understanding the key Features and Capabilities that it provides and how these can support you in your day to day work. Digital Literacy.	1
11:20 – 11:50	From Concept to Cloud: Bridging the Prototype-to-Production Gap with Google Cloud's Well-Architected Framework	Alex Stepney (Google)	Turning prototypes into production-ready cloud systems is challenging. While Design Thinking supports rapid iteration, early solutions often lack resilience and scalability. This talk explores how the Google Cloud Well-Architected Framework helps teams build secure, reliable, and efficient cloud deployments—without heavy governance overhead. Solution & Technical Architecture.	3
12:00 – 12:30	Navigating the Next Wave of Tech Innovation	Jamie Harbour Alex Stepney (Google)	Join Jamie Harbour, LBG Senior Enterprise Architect, and Alex Stepney, Google Head of Innovation and Architecture, to explore the tech shaping our future—from quantum computing and neuromorphic design to generative AI and privacy-first solutions. Discover what's real, what's hype, and what LBG needs to know to stay ahead. Whether you're an engineer or simply curious, this session will help you navigate the next wave of innovation. Technology Intelligence.	1

Lunch 12:30 – 13:30

We are committed to developing a skills-based organisation. Each talk or workshop is designed to focus on a critical skill, which is clearly highlighted in the description.

Use our Reboot Rating System below to find the content and get the most from your day.

Talk Schedule

Menteith Room: Level -1

Time	Title	Speaker(s)	Description	RRS
13:30 – 14:00	Skills Based Organisation	Kelly Evans Paul Wild Ryan Lau	How we enhance and embed a skills-based capability and culture to develop a highly skilled workforce. Optimising career progression and mobility in-line with industry standard – a chance to hear more about Engineering Levels. Learning & Talent Development.	1
14:10 – 14:40	From Pets to Cattle to Ghosts: The Evolution of Containers	Paul Gledhill	Infrastructure has evolved—from lovingly maintained servers (“pets”) to disposable VMs and orchestrated clusters (“cattle”). Now, serverless containers introduce “ghosts”: ephemeral workloads that appear when needed and vanish when idle, cutting waste and energy use. This talk explores why this shift matters for speed, cost, carbon, and resilience, and how it reshapes how we build and run applications—with insights on right-sizing, smart scheduling, and carbon-aware design. SRE & Service Engineering.	2
14:50 – 15:20	Technology Strategy 3.0: Our Vision to be the UK’s Biggest FinTech	Kieran Coult Chris French	Join us to reveal our latest technology strategy outlining how we Simplify to fix yesterday’s complexities, Modernise with the technologies of today, Pioneer by building for tomorrow and Engineering with Excellence by putting the best talent, agile processes and tools at the heart of everything we do. Technology Leadership.	1
15:30 – 16:00	Building Blocks of Agents	Prabhu Nair (Google)	A technical deep dive for developers and architects on how to construct, connect, and deploy AI agents. AI/ML Solution Design.	3

We are committed to developing a skills-based organisation. Each talk or workshop is designed to focus on a critical skill, which is clearly highlighted in the description.

Talk Schedule

Lowther Room: Level -1

Time	Title	Speaker(s)	Description	RRS
10:00 – 10:30	Engineering Excellence for All	Amy McDaid Jonathan Smith Claire Noble	Think tech's just for engineers? Think again. In this panel, you'll hear real life examples of how our colleagues are using AI and digital tools to boost their everyday work. From applying an engineering mindset to embracing change and learning, this session will spark ideas and show how tech skills are for everyone. Come curious, leave inspired. AI Literacy.	1
10:40 – 11:10	Copilot & Your Career	Sean Smith	Don't ask AI — let AI ask you! Want to get more out of your role and your career conversations? Discover how Copilot can help you transform your role, tee up great conversations about your job, as well as shape your career. This session is designed to give you real prompts, real examples, and real ways to make Copilot work for you. Learning & Talent Development.	1
11:20 – 11:50	Launching Front-End solutions through Interstellar (CDN/AEM)	Daniel McCorley Tomorr Rexhepi Nadia Alam-Ibrar Alasdair Scott	Launch new CWAs with no provisioning, engagements and have all the content branded with a few clicks! UI & UX Design.	2
12:00 – 12:30	Data Disasters – Data Resilience in the AI Age	Johnty Wright	Did you know that 40% of Cyberattacks are now AI driven? In this presentation, the Data Resilience team will introduce you to the measures taken to protect the group from everything from Cyberattacks to Data Degradation with a focus on an AI as a force for good (or not!) Data Privacy, Ethics & Security.	1
Lunch 12:30 – 13:30				

We are committed to developing a skills-based organisation. Each talk or workshop is designed to focus on a critical skill, which is clearly highlighted in the description.

Talks

Talk Schedule Lowther Room: Level -1

Time	Title	Speaker(s)	Description	RRS
13:30 – 14:00	Mac and Cheese Mainframe: Perfect Partners?	Philip Nelson Jessica Huckson	Having been an early adopter of the Enterprise Mac initiative, this presentation looks at how two unlikely technologies (Mac and mainframe) work well together. Along the way it explores the modern mainframe and DevOps practices. DevOps.	1
14:10 – 14:40	The Future of Preventative Care: Remote Health Monitoring with Computer Vision	Bea Schofield	LBG is building a healthcare ecosystem in its apps to make healthy living easy and rewarding. This talk explores key technologies we're testing and includes a remote health check so you can experience the future of healthcare first-hand. Sustainable Technologies.	1
14:50 – 15:20	Next-Level Collaboration: Confluence, Jira & AI at LBG	Hilary Lanham Adam Wood (Atlassian) Richard Morton (Atlassian)	We're taking teamwork to new heights! With Confluence now in the cloud and Jira soon to follow, discover how these tools can transform the way we work at LBG. This session will introduce the cloud features, highlight key differences from the old setup, and give you a sneak peek at RoVo—Atlassian's new AI assistant that's set to change the way we find, create, and collaborate. Agile Methodology & Tools.	1
15:30 – 16:00	How IDP will Drive the Success of the Future of Application Development	Paul Carroll	Discover how IDP boosts app development by making existing and new applications composable by default—driving the Bank's digital transformation. Learn how Business Platforms can accelerate delivery and manage their own experience using IDP's federated tools for development, integration, and governance. Solution & Technical Architecture.	3

We are committed to developing a skills-based organisation. Each talk or workshop is designed to focus on a critical skill, which is clearly highlighted in the description.

Wellbeing Talks

Conference Room: Level -1

Time	Title	Speaker(s)	Description	RRS
10:40 – 11:10	Unmasking Imposter Syndrome with ASPIRE	Ugonna Okoro Anika Hussain	Tell us if this sounds familiar. You're new and excited about your role, but self-doubt creeps in when you discover you don't know as much as others. Or maybe your experience spans decades, but the higher you climb, the more pressure, stress, and burnout you feel. This ASPIRE-led talk tackles the workplace's biggest unspoken challenge, one that affects 70% of adults . You'll hear real stories, gain practical tools, and leave with renewed confidence, resilience, and a sense of empowerment. Emotional Intelligence.	1
11:20 – 11:50	Qigong	Victoria Jardine	Looking for a way to relax and recharge? Join us for Qigong – a fun, light-hearted practice that blends mindfulness, breathwork, tapping, and gentle rhythmic movements. Qi (life energy) flows through all living things, and Qigong helps you connect with it. It's a simple way to de-stress, slow down, and feel more balanced and present. Come with an open mind and a sense of humour – some moves may feel a little silly, and that's part of the fun! Resilience Wellbeing & Adaptability.	1
12:00 – 12:30	'Letting Go' Afternoon Meditation	Parul Shah	We often hold on to the past and worry about the future. This is like a burden we carry and stops us being light and easy. Join us for a short meditation to experience being in the present. Resilience Wellbeing & Adaptability.	1
Lunch 12:30 – 13:30				

We are committed to developing a skills-based organisation. Each talk or workshop is designed to focus on a critical skill, which is clearly highlighted in the description.

Wellbeing Talks

Conference Room: Level -1

Time	Title	Speaker(s)	Description	RRS
13:30 – 14:00	Finding my Feet at Google	Andy Mather (Google)	Google has an image of being a fun and cool place to work with lots of perks but how in a big corporation do you navigate a line between the demands of the business and the potential benefits available to you. Andy Mather, just passed his 6th Google anniversary, will reflect on his journey and also on how to maintain a balance in an increasingly AI driven workplace. Resilience Wellbeing & Adaptability.	1
14:50 – 15:20	Unmasking Imposter Syndrome with ASPIRE	Ugonna Okoro Anika Hussain	Tell us if this sounds familiar. You're new and excited about your role, but self-doubt creeps in when you discover you don't know as much as others. Or maybe your experience spans decades, but the higher you climb, the more pressure, stress, and burnout you feel. Workshop Room Lammermuir 1: Level -2

Time	Title	Speaker(s)	Laptop Required?	Description	RRS
10:00 – 11:20	An Introduction to the Agent Development Kit	Google	Personal device needed	This technical session is a deep dive into the Agent Development Kit (ADK), our powerful framework for building, testing, and deploying autonomous AI agents. AI/ML Solution Design.	3
11:30 – 12:50	Dev Containers for LBG Engineering	Fangkang Mi	LBG device needed	Join us for a hands-on workshop exploring how to effectively use dev containers in your development workflow. This session is curated by the Software Engineering CoE (CTO) to align with LBG's standards for tooling, compliance, and strategic programming languages. Dev containers streamline environment setup, enabling you to build software that is secure, reproducible, and enterprise-ready – accelerating delivery while maintaining engineering excellence. Software Engineering.	2
13:30 – 14:50	AI Workshop: Agent Engine, NotebookLM and Gemini Enterprise	Google	Personal device needed	In this hands-on workshop you'll get your hands on the three most powerful tools in our AI stack: Agent Engine, NotebookLM and Gemini Enterprise. Don't just listen to what's next in AI. Come and build it. AI/ML Solution Design.	3
15:00 – 16:20	Emerging Tech Radar: The Tech to Watch in 2026	Alisha Mukherjee	No	To stay a leading player tomorrow, we need to think about the future today. The 2026 Emerging Technology Radar is here, spotlighting the innovations set to reshape financial services and beyond. Join Emerging Tech & Innovation's Alisha Mukherjee as she unpacks the tech gaining traction, what we should pay attention to and why it matters. We'll separate the hype from reality and invite you to explore and ideate how these could be harnessed in your team's future. Technology Intelligence.	1

Workshop Room

Lammermuir 2: Level -2

Time	Title	Speaker(s)	Laptop Required?	Description	RRS
10:00 – 11:20	Work Smarter to Get Faster!	Dee Adam	No	Through game-based learning you will develop the skills to better understand how much work you have in progress, how to avoid blockers and improve your speed of delivery. You'll learn how to deliver more without working any harder. Agile Methodology & Tools.	1
11:30 – 12:50	Introducing Customer Lifecycle Management	Al Verity Julie Lockhart Simon Goldsmith	No	Learn about what the Group's new Customer Lifecycle Management framework is all about, the key learnings from the early-adopter pilot in IP&I and how you can start to apply in your work. Customer Centricity.	1
13:30 – 14:50	Harnessing insights though Dialogue with Data	Ansel Liu	LBG device needed	Imagine asking databases questions in plain English and getting instant answers. This workshop introduces Dialogue with Data—an AI-powered tool from ET&I and Nerve Centre that makes finding insights fast and easy, without technical skills. See it in action, explore use cases, and share ideas on how it could transform the way we work. Data Literacy.	1
15:00 – 16:20	Serverless Superpowers with Google Cloud Run	Jack Stuart Siham Fiqow	LBG device needed	Supercharge your serverless skills in this practical workshop focused on Google Cloud Run. Learn to deploy and scale containerised apps with ease, secure your services, and build reactive systems using Pub/Sub and Cloud Storage triggers. You'll also explore traffic splitting, service revisions, and encryption with CMEK. Ideal for engineers, developers, and platform teams working in cloud-native environments. IT Platforms & Hosting.	3

Workshop Room Platform 5: Level 1

Time	Title	Speaker(s)	Laptop Required?	Description	RRS
10:00 – 11:20	Project in an Hour!	Mike Evans Magda Widera	LBG device needed	Can you scaffold a project in an hour? “Scaffold” ..? – produce all the designs and documentation – down to JIRA ticket level – for a brand-new project, maybe not alone. But with Copilot? Let’s find out. This fun, fast-paced “prompt-a-thon” explores how far Copilot can accelerate setup for architects and engineers ready to push the limits. Solutions Design.	1
11:30 – 12:50	Building and Deploying apps with the Internal Developer Platform	Gordon Shiell	LBG device needed	Join us for an immersive hands-on technical workshop where we will guide you through the process of creating an app using our Internal Developer Platform, providing a comprehensive engineer’s experience from start to finish. We will provide you with all the necessary access and resources, along with step-by-step guidelines. Our experts will be on hand to assist and answer any questions you may have, ensuring you gain practical, hands-on experience. Software Engineering.	2
13:30 – 14:50	Agile Journeys Live: Panel, Play and Problem-Solve	Sarah Grainger Fiona Sung Alexa Atherton Justin Kirby Dee Adams Sinead Fitzpatrick	No	An energising session where Change Job Family colleagues share their personal journeys into Agile: what they did before, how they discovered Agile ways of working, and the key lessons they’ve learned. The panel focuses on mindset and practical experience. The session wraps up with breakout groups tackling real team challenges using Agile thinking. Agile Methodology & Tools.	1
15:00 – 16:20	Reboot Rapid Connect: Fast Track Your Network	Chloe Solvey Charlotte Cullen	No	Make real connections—fast! Join this 80-minute, game-style session to meet engineers and non-engineers from across LBG. Swap ideas, share challenges, and discover mentors, mentees, or teammates. Expect energising role-guessing chats, Love & Challenge games, and leave with warm intros and easy ways to keep the conversation going. Collaboration.	1

Code of Conduct

At Reboot we aim to provide a friendly and supportive environment for colleagues. Please follow this Code of Conduct to ensure everyone gets the most from the day. If you see or experience inappropriate behaviour, ask respectfully for it to stop.

What we ask of you:

- 01 Engage:** Be in the room and take part in activities. We kindly request that you do not log on to Teams calls through the day.
- 02 Share:** Take what you learn from the event and share it with your team.

Live our group values:

Inclusive: Be inclusive in your actions and language. Help us make the event something for everyone to benefit from.

Sustainable: Don't throw away reusable giveaway items – if you don't need or want it, don't accept it.

Trust: Assume people are working in our best interests and trust them in their endeavours.

Bold: Be prepared to meet new people, learn new things and experiment with technology.

People-first: Treat each other with respect and go the extra mile to support each other.

Accessibility — supporting information

As per our Code of Conduct, please **be inclusive** in your actions by **putting people-first**.

- If an attendee is wearing a yellow sunflower lanyard, be aware this may be the sign of a hidden disability.
- If you need any more information, see our **Inclusive Briefing Pack**, available at reception.

Reboot Edinburgh 2025 Inclusive Briefing Pack

We have prepared a Reboot Edinburgh Inclusive Briefing Pack which describes what you will experience at the event and includes accessibility information. A copy is stored on the Reboot Edinburgh event SharePoint site and some printed copies are available at reception.

Using Reboot

as a force for good

Supporting Crisis

Whilst Reboot's focus is on tech, we know that people are the most important part of any organisation. We also know that it's important to support the most vulnerable in society, which is where LBG's partnership with Crisis comes in.

CTO Changing Together's very own **Anthony Francis** is taking on this year's Trek Challenge. He'll be away from 22-29 November, spending 5 days in the Sahara Desert! Here's why it's so important to him.

"Living in such a large city I see the reality of homelessness all the time, it's shocking. I believe that we are all just a couple of mistakes away from homelessness and therefore we should all try and prevent it – nobody should be without a home filled with love.

I'm hoping to show everyone that we can all make a difference by raising awareness and funds, we can all end homelessness if we work together and push ourselves."

Please help Anthony to end the crisis of homelessness by donating whatever you can.

We are filming and taking photographs at Reboot today

Attendees should be aware that they may appear in background footage and images taken throughout the day as we have a film crew and photographers capturing the event.

These images may be used for social media posts/external promotional material. If you do not wish to be photographed or filmed, please speak to reception who will provide you with a red Reboot Lanyard, so our photographers and filming crew will make sure you are not recorded.

We want to hear your thoughts

Thank you for joining us at Reboot Edinburgh 2025.

We want to hear about your experience of the day. Please take a few minutes to share your honest thoughts with us, by scanning the below.
