

Time	Working Cafe Event Space - Talks	9th Floor Room 11-12 - Talks	10th Floor Room 2 - Workshops	8th Floor Room 10-11 - Workshops
13:00				
13:10				
13:20				
13:30	Modernise and Simplify Deep Dive: Legacy Simplification TALK 13:30-14:00 Lou Jones; Paul Hartigan	Agentic BI: Modernising Decision-Making TALK 13:30-14:00 Andrew Herman; Vibhusha Raval; Edward Sinclair-Hughes		
13:40				
13:50	How HCX is accelerating workload migration to strategic cloud platforms, reducing cost and risk, and enabling innovation.	How organisations are moving beyond dashboards towards real-time intelligent decisions and evolving analytics skills.		
14:00			Labs@LBG Hands-on Learning Session with Optional Drop-in Support WORKSHOP 13:30-14:50 Vicky Stacey; Alex Randall	Token Survivor: The GitHub Copilot Efficiency Challenge WORKSHOP 13:30-14:50 Stu Fosker
14:10	Green Private Cloud: The Developer Experience You Always Wanted TALK 14:10-14:40 Shane Porteous; Matt Cherrett	Rethinking Change at Lloyds TALK 14:10-14:40 Joshua Mayes	Flexible hands-on engineering labs covering Interstellar, Quarkus, Spring Boot, LLM FastAPI, Bash, TypeScript and LLMs.	Practical challenges to reduce context size, choose models, optimise prompts and use GitHub Copilot efficiently.
14:20				
14:30	Learn about the next-generation internal cloud platform and its automated, self-service, standardised engineering model.	Explore a reimagined end-to-end change experience, simplification and continuous improvement.		
14:40				
14:50	Internal Developer Portal (IDP): Innersourcing and What's Coming Next TALK 14:50-15:20 Andy Page; Dan Davy	GCOO - Business Process Intelligence: Where Does the Work Really Go? TALK 14:50-15:20 Mandie Gadsby; Steven Tozer		
15:00				
15:10	Discover InnerSource benefits and preview upcoming Q4 Internal Developer Portal features.	See how ARIS, SKAN and Rainbird reveal work journeys, friction and simplification opportunities.		
15:20				
15:30	A Sat Nav, an Octopus and the Future of Being Human TALK 15:30-16:00 Amy Banks	Engineering Migrations TALK 15:30-16:00 Mark Lane	Building AI Agents with Context WORKSHOP 15:00-16:20 Azahar Machwe	Sherlock Holmes meets Microsoft 365 WORKSHOP 15:00-16:20 Henry Wharton
15:40			Hands-on workshop transforming generic Q&A agents into personalised, context-aware systems with tools and hand-offs.	Investigate a digital crime scene using Copilot to uncover who stole the Project Baskerville prototype.
15:50	Why judgement, curiosity and care matter as AI becomes more capable.	Interactive discussion on the roadmap to strategic engineering tools, support and platform adoption.		
16:00
